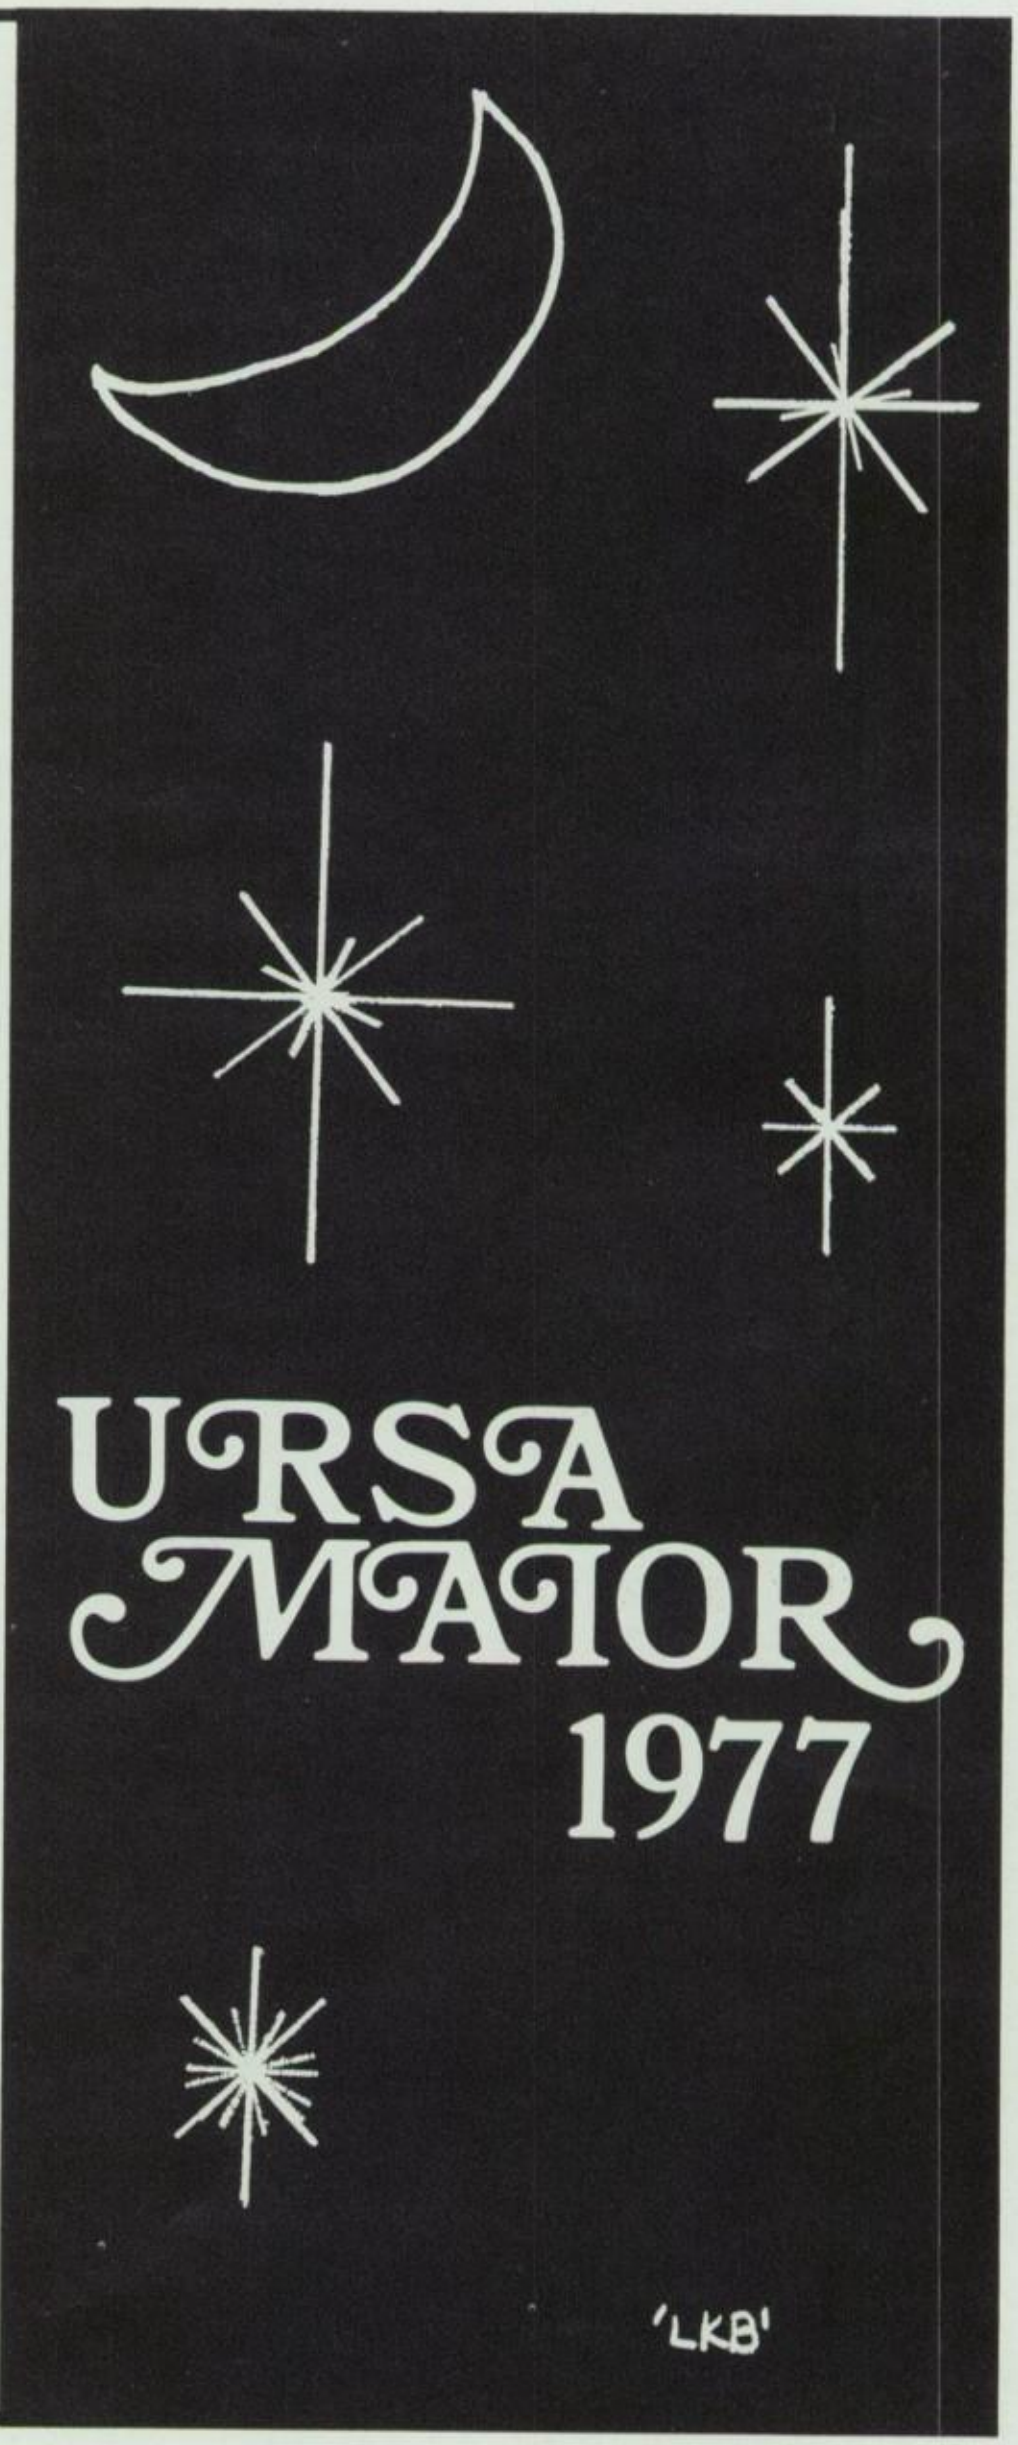
Volume X



When you wish upon a star

Dreams will take you very far

But when you wish upon a dream

Life ain't always what it seems

What'd you see, on night of clear

In the sky so very dear

You're a shining star

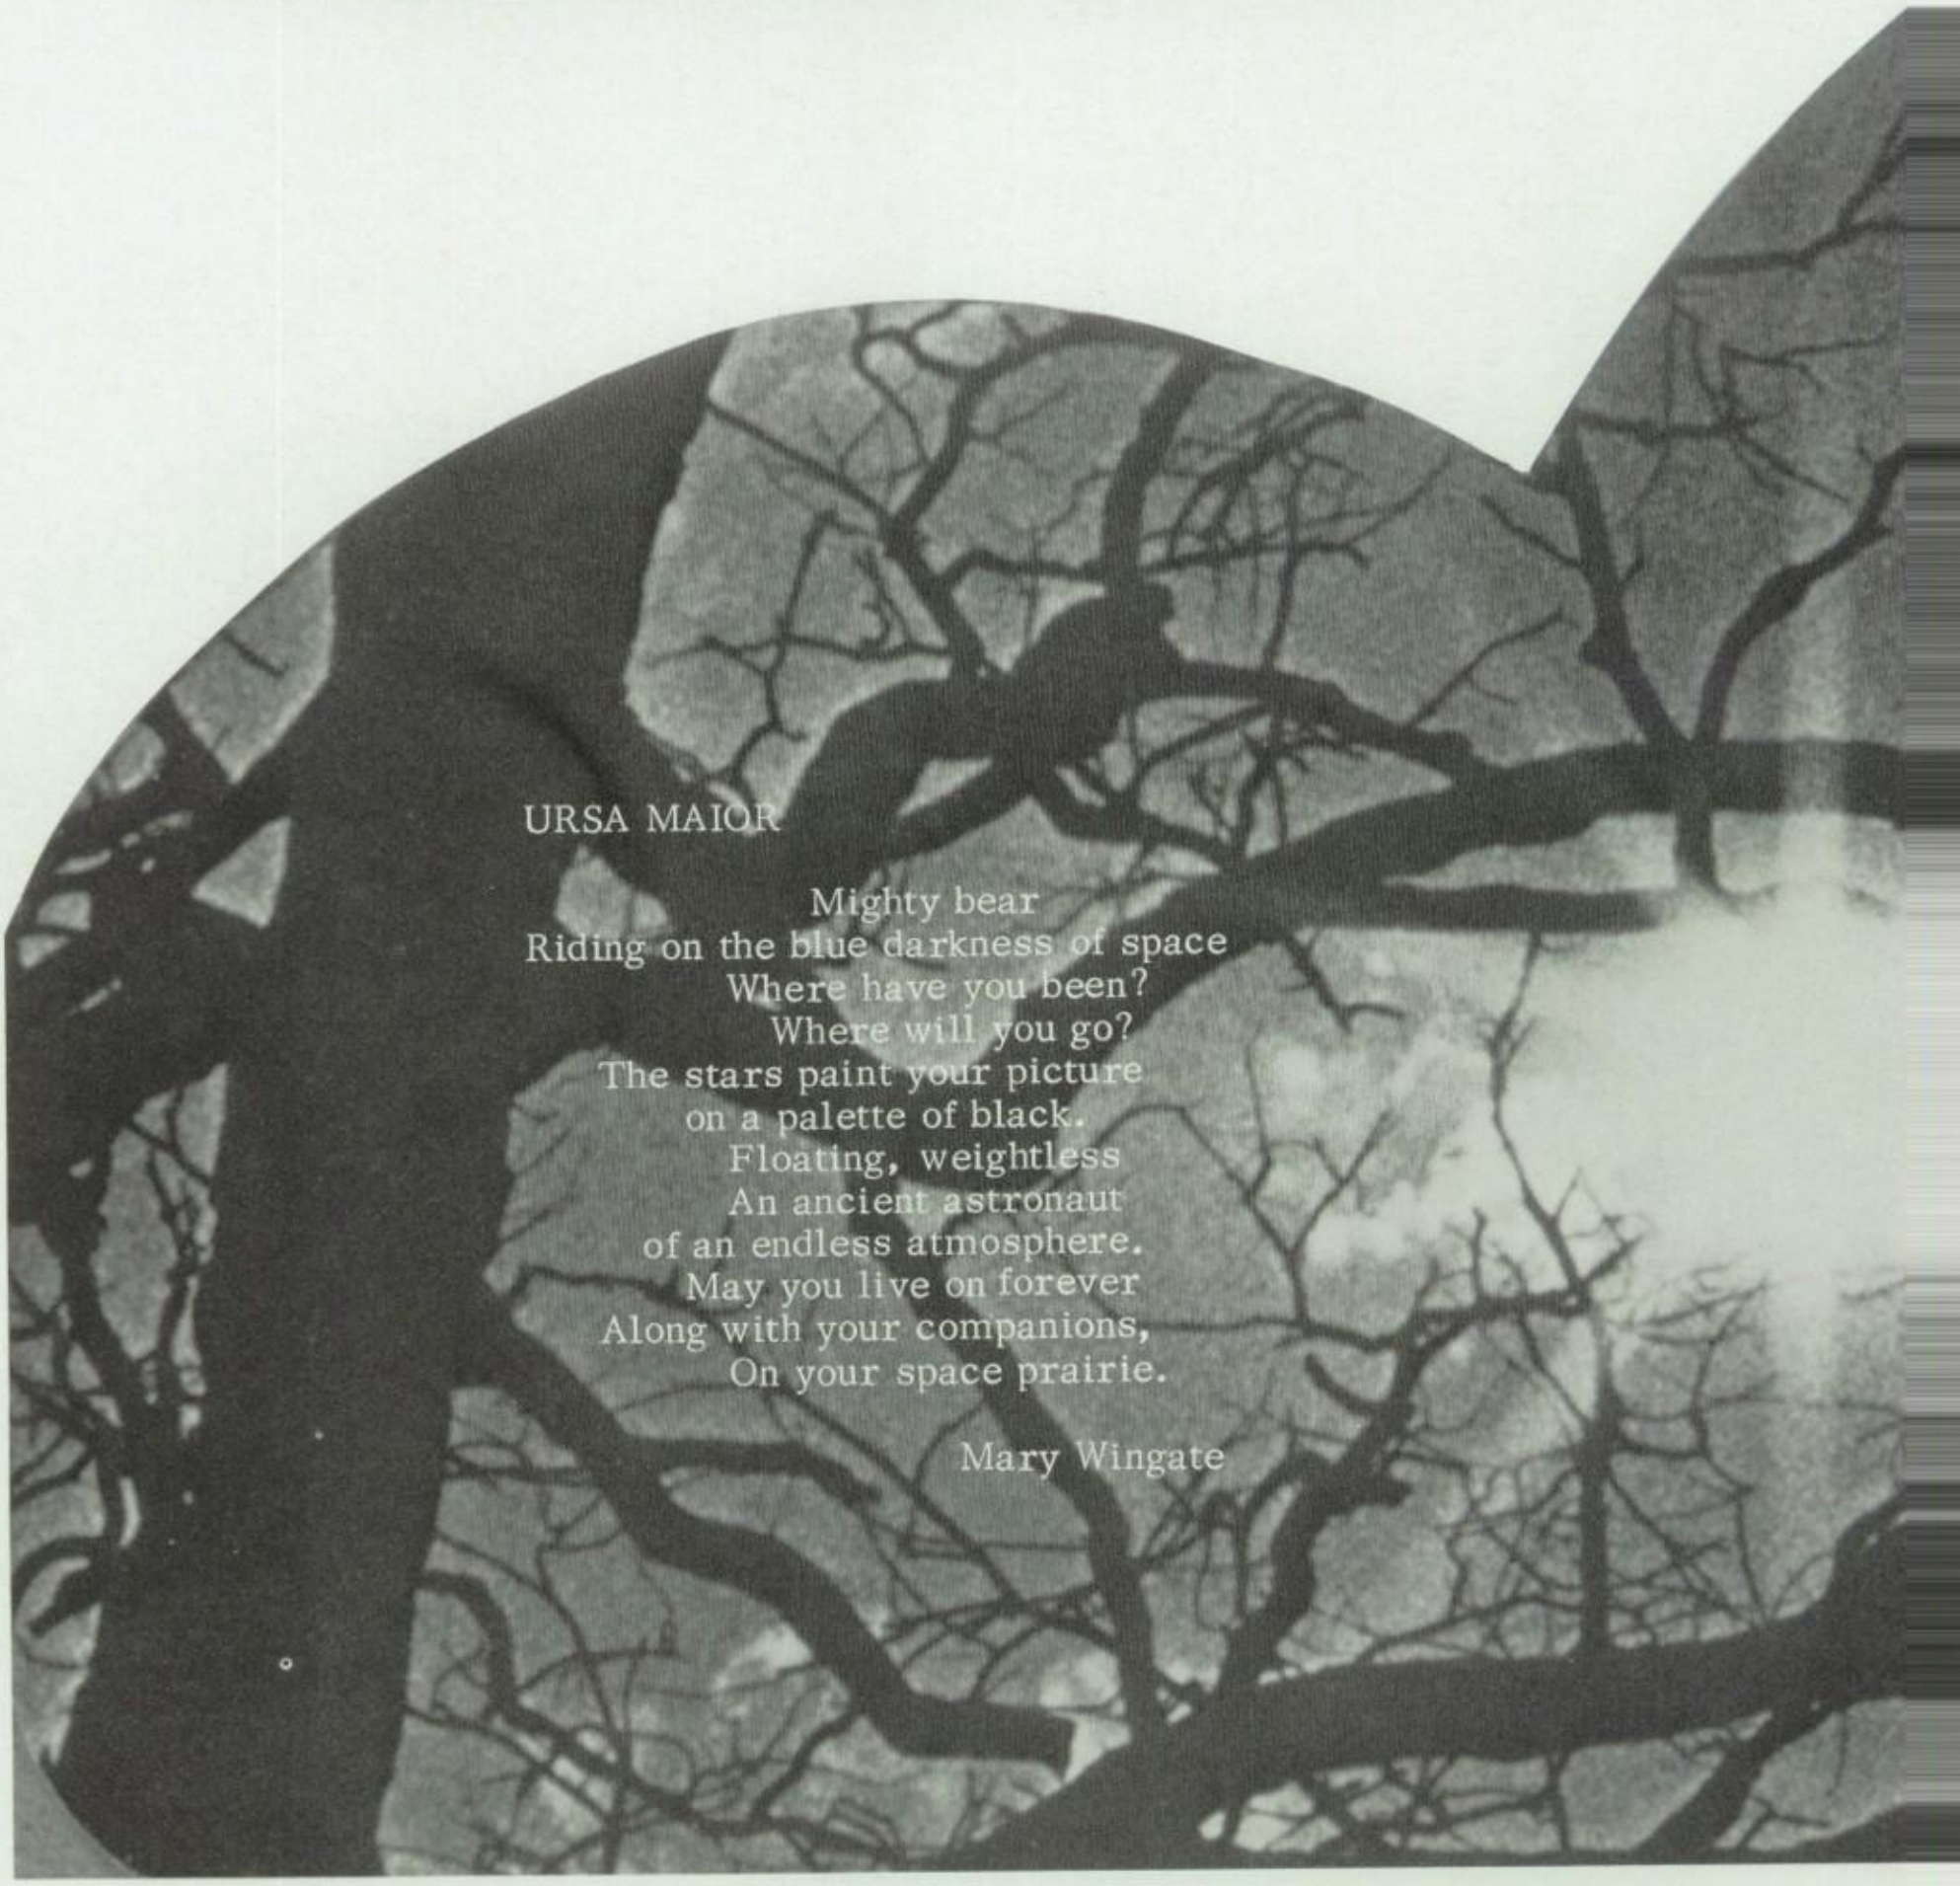
No matter who you are

Shining bright to see

What you can truly be . . .

--Maurice White, Philip Bailey and Larry Dunn

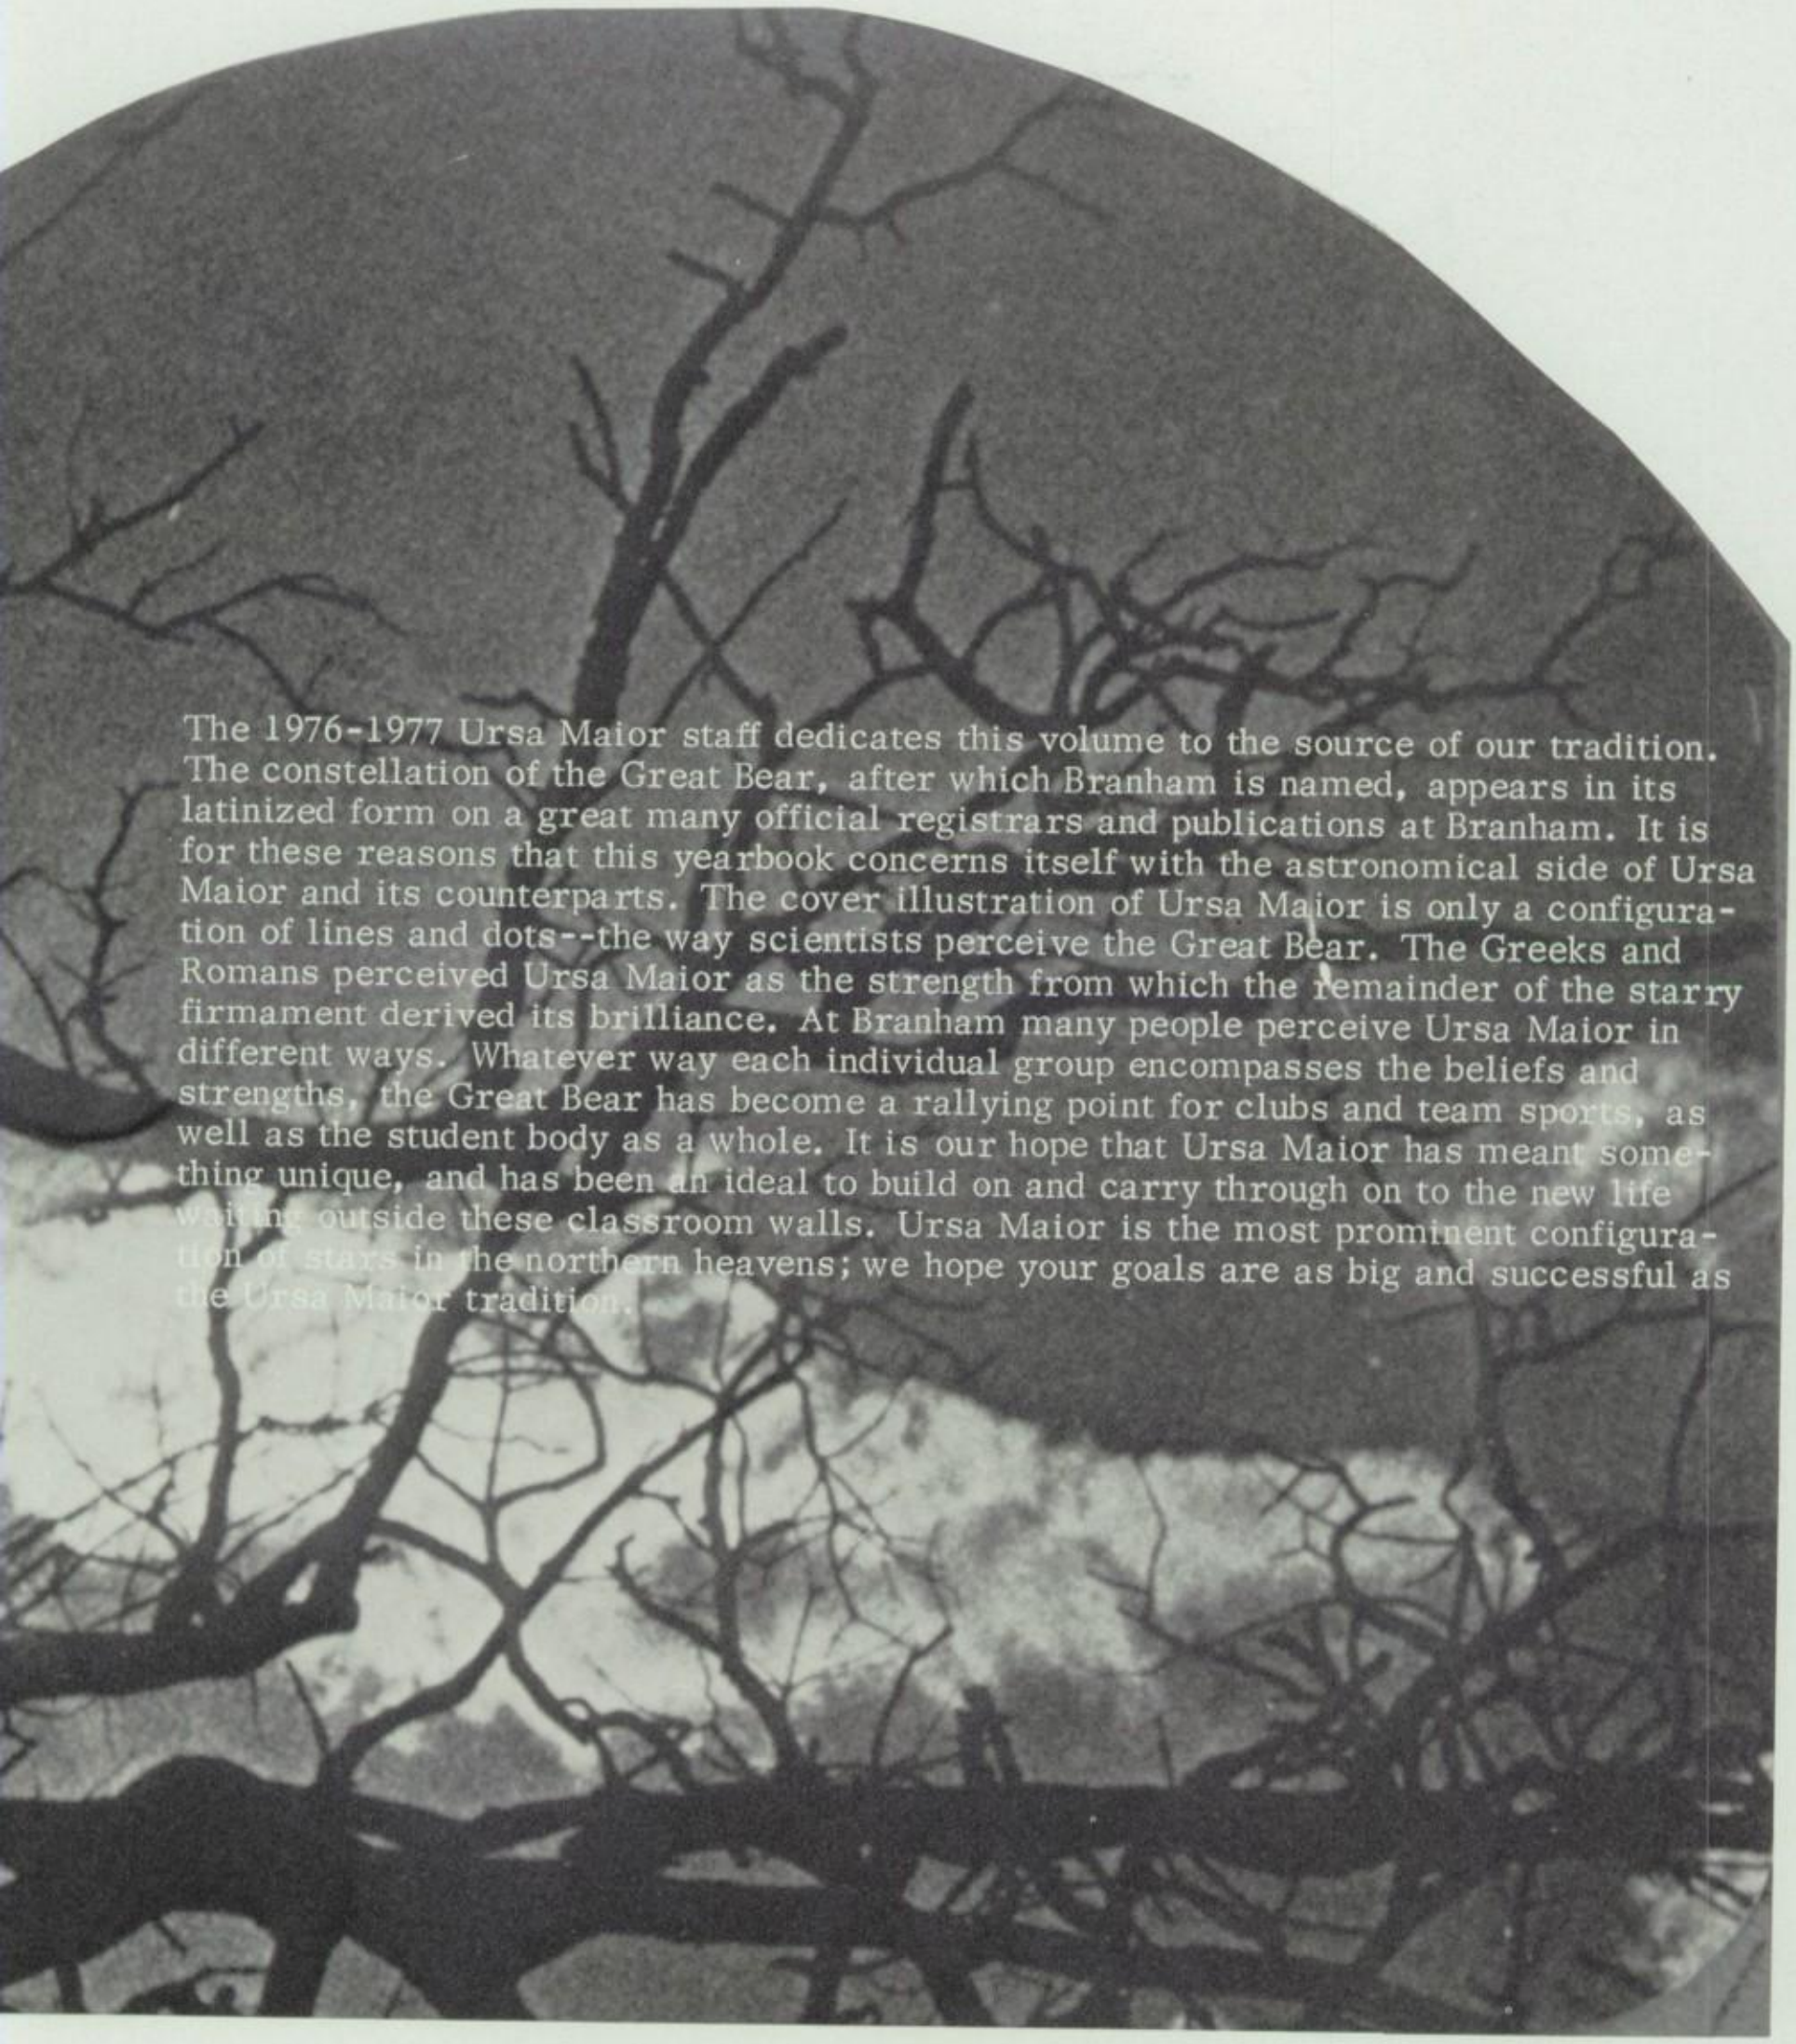
DEDICATION



URSA MAIOR

Mighty bear
Riding on the blue darkness of space
Where have you been?
Where will you go?
The stars paint your picture
on a palette of black.
Floating, weightless
An ancient astronaut
of an endless atmosphere.
May you live on forever
Along with your companions,
On your space prairie.

Mary Wingate



The 1976-1977 Ursa Maior staff dedicates this volume to the source of our tradition. The constellation of the Great Bear, after which Branham is named, appears in its latinized form on a great many official registrars and publications at Branham. It is for these reasons that this yearbook concerns itself with the astronomical side of Ursa Maior and its counterparts. The cover illustration of Ursa Maior is only a configuration of lines and dots--the way scientists perceive the Great Bear. The Greeks and Romans perceived Ursa Maior as the strength from which the remainder of the starry firmament derived its brilliance. At Branham many people perceive Ursa Maior in different ways. Whatever way each individual group encompasses the beliefs and strengths, the Great Bear has become a rallying point for clubs and team sports, as well as the student body as a whole. It is our hope that Ursa Maior has meant something unique, and has been an ideal to build on and carry through on to the new life waiting outside these classroom walls. Ursa Maior is the most prominent configuration of stars in the northern heavens; we hope your goals are as big and successful as the Ursa Maior tradition.

Why do we wait until something is gone to fully appreciate what we had? So often we take for granted the unmatched gift of life-the life in ourselves, and the life in those we love. Yet, life, even with the splendor of vitality, is no match for death, and Paula Jouthas' cheerfulness, her constant laughter, and her inner strength make it seem so incomprehensible.

Through death, a great injustice is done and on earth we are left to struggle with the loss. It leaves no explanation, that a person in the prime of life who has everything to offer, should be so cruelly taken. Only God knows the answer while man is left to struggle with the questions. Our only hope is our memories; occasionally our minds echo with a laugh that resembles hers, and images float to the surface; the jacks that never seemed to hold up the books, the old red stool, Labyrinth, Huck Finn, the invincible red pen, how the end of the story always came at the beginning. Even these memories are no tribute to her intellect and personality; and although we sorely miss her, her vibrancy will continue to live inside of us, so that we think, of her not as gone, but rather as passed on.

The 1976-77 season was a very successful one. The Bruins placed second in the West Valley League to C.C.S. top ranked Del Mar. The only team to defeat Del Mar this season was the Bruins 54-50 in league play. With a young team the Bruins improved all season long and should be a contender next season. Braham placed fifth in the Westmont Tournament and won the consolation trophy for the Camden Tournament. Russ Dyer was selected to the all-tourny teams in both tournaments.

This years team had a tough time winning the close games so the won/loss record doesn't look too good. Their season record was seven wins and fourteen losses and their league mark was four wins and ten losses. However they did make alot of progress and improved with each game. Leading the team in scoring and rebounding was sophomore, Joe Hash, leading assists was sophomore Don Riggs, best defense player was Dave Demaria and chosen as team captain was sophomore Russ Chagnon. The most valuable player award went to Joe Hash and the most improved player award went to John Topoian.

1976-1977 Ursa Maior Staff

We of the Ursa Maior staff hope that the students of Branham appreciate this issue of the Yearbook. A great deal of hard work was done to make the 1976-77 Yearbook better than all the previous years. Each staff member contributed uniquely to the book, and the result is a special tribute to 1976-77. We were confronted with many problems, but we also had a lot of fun times. Last, but not least, we would like to thank Peggy Machida, Yearbook editor, and Mr. John Shaw, advisor.

The Ursa Maior staff would like to thank all the contributors who helped us make it through the year. It would be impossible to acknowledge all...but we'll try. Thanks to--
